---

Good morning, Venice Beach BID.

I'm wondering what has become of the appended request. I sent it eight months ago. The law requires you to have responded by February 27, 2017, but you have failed to respond at all.

I see that I neglected to include a starting date for your search. I need to see all such records from January 1, 2016 through whenever you run the searches.

Thanks for your help and cooperation,

Good afternoon, Venice Beach BID.

I'd like to take a look at the following listed records. For emails, I need to see these in their native format, which means one of .eml, .msg, .mbox, or .pst. I will also need to see all attachments to emails in their own native formats. If you supply the emails in the above-listed formats the attachments are included automatically.

1. All communications, including but not limited to email, between anyone at the VBBID and anyone at the City of Los Angeles, including but not limited to the Clerk's office, CD11, and the LAPD.
2. All communications, including but not limited to email, between anyone at the VBBID and anyone at Devine Strategies, including subcontractors, e.g. Ed Henning and any others about whom I don't know.
3. All intra-board communications that relate to the business of the BID.
4. All records relating to the VBBID's choice of a security provider. As I don't know whether or not you all have chosen one, I can't be too specific. If you have not I'd like to see all communications, RFPs, proposals, and so on. If you have, I'd like to see all that same stuff plus contracts, training materials, MOUs, etc.

Thanks in advance for your help and cooperation,
